HAPPY NEW YEAR!
Welcome back! We are all looking forward to a fun-filled year!

Important Dates
The ECC will be closed for Martin Luther King Jr. Day on 1/19/15

Parent Parking
A friendly reminder that parent parking for drop off and pick up is located on Olive Street to the south of the school.

The parking lot to the north of the school is designated as ECC-staff parking only!

Outside Play
With the cold weather upon us, we thought it would be a good time to remind you that ECC policy is to take the children outside to play on the playground as long as the temperature is above 20 Degrees Fahrenheit.

Please make sure your child comes to school with the proper attire to play outside in cold weather.

Weather-related Closures
In the event that Colorado State University closes due to weather, the ECC also closes. CSU posts campus updates and alerts to www.safety.colostate.edu and alerts the local media.

At the ECC, we also attempt to update our voicemail and website as quickly as we can when we are notified of a closure.
It’s cold and flu season!

Hand washing is one of the most effective ways to reduce the spread of germs and disease. NAEYC requires hand washing when entering the classroom, after outside time, after nose blowing, before handling food, after playing in water, after diaper changes, and after cleaning up bodily fluids.

NAEYC requires children and teachers to wash their hands when arriving at school. Please help us by encouraging your children to wash their hands when you arrive in the classroom.

To further prevent the spread of disease, please keep your child at home if they have any of the following symptoms:

- Vomiting or diarrhea in the last 24 hours.
- A fever of 100 degrees or more in the last 24 hours.
- Excessive coughing or nasal discharge.
- Draining sore or rash.
- Strep throat that has not been treated for 24 hours with antibiotics.
- Untreated head lice or scabies.
- Red itchy matter in eyes that has not been treated with antibiotics for 24 hours.
- Symptoms of a possible communicable disease (these usually include sniffles, reddened eyes, sore throat, headache, and abdominal pain with fever).
